

MISSION STATEMENT

Our vision is to become the world's leading alpine ski academy. At Apex2100, we believe an educated athlete is a successful athlete. Our programme equips young people with the necessary attributes to develop into lifelong learners who contribute positively to whatever path they choose. We offer an enriched, flexible and diverse learning environment in which we value intellectual curiosity, self-reflection and open-mindedness.

As an international academy, our vision is global; we value the exploration of different languages and cultures, and our athletes are encouraged to challenge themselves across a multitude of disciplines. We promote and celebrate the attitudes and skills required for both academic and personal success in sport and beyond.

VISION STATEMENT

Our aim is to create future Olympic and World Champions in alpine skiing.

We'll also help our young skiers to pursue their academic aspirations alongside their sporting goals by reimagining the way they Learn, Train and Perform.

At Apex we encourage a culture of; Diversity, Respect, Pride, Responsibility and Unity to create well-rounded individuals.

OUR VALUES

PRIDE
